Back from Panama

It is difficult to come back, our hearts and thoughts stayed in Panama.

However, we only have a vague idea of this country that brings together the Americas. It was not without fear that we had to prepare to face the mosquitoes and dangers of the Darien.

We are Joëlle and Cécile, two parishioners of Saint Gertrude. With two other GAM friends, Guy and Aurélie, we met with the priests Libardo, Gabriel, Pedro, Guillermo, Carlos, Cristina and Amilcar on July 22 in Panama.

We are particularly grateful to parents and kids of the *l'école du Bonheur and Marie Assumpta de Laeken* school who have supported this GAM project.

We have been enriched by this fabulous life changing experience and would love to share all of it with you. A video report, a testimony and a great 2014 calendar are being prepared for you.

Don't miss the annual GAM dinner that will take place at the end of November. Looking forward to see you there!

Joëlle, Cécile, Aurélie et Guy

We were welcomed by the warmth of the missionaries working there; had rich and touching conversations with local families; visited the three multipurpose facilities that have been built thanks to the donations collected by GAM and met with the local committee for human promotion. The vegetation was luxuriant and the fauna incredible. The moistness and the heat of the tropical jungle; the faces and the culture discovered after crossing rivers by pirogue while surrounded by crocodiles and the contrast between Panama City and the rest of the country. It's amazing how many things we can discover in just a few days.
