MARCH 2024

At the beginning of March we held the **5th meeting with our partners in the South**. We met online the project leaders in the countries where we are developing the 2024 GAM projects.

The aim was to find out how the projects, which are regularly monitored by GAM to ensure that their implementation is in line with the strategy and objectives of our association, as well as to confirm that the expected results are being achieved. So far, the seven 2024 projects are meeting their objectives. In June we will receive the interim report of the projects, which will contain more detailed information on their development and impact on the lives of our beneficiaries.
