After the tumultuous end of 2015, we are finally back with some good news!

Our long-awaited Annual Dinner was held on 20th February! A delicious paella has gathered 150 guests in attendance. Proceeds from this event will provide essential resources and support for our projects. This was a perfect chance to assess the developments on projects in Columbia and the Ivory Coast, as well as the launching our new project on 'The Insertion of Abused Women in Bolivia'.

Those of you who had the chance to attend GAM Fieldwork will recognize how much can be achieved with this level of funding.

Our much-valued Fieldwork volunteers who participated in this trip have ardently shared their unique experiences, spreading the word while contributing far more than piles of literature could offer.

It is with tremendous joy that we witness the transformations on the ground. Launching development efforts in isolated towns or communities automatically creates a positive response and a desire within these communities to sustain improvement efforts.

This year 2016 brings a number of challenges and difficulties that we intend to address in our continuous efforts to grow and adapt.

Knowing how much our contributions impact the lives of many and that our actions are patiently awaited, we will continue full speed ahead !
